REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Although it is known to electrospin onto a cumulative plate on a conductive collector as taught by Lee et al. (US Patent Application Publication No. US 2002/0100725 A1) (see paragraph [0042]), the prior art of record does not teach or suggest the claimed process of electrospinning a continuous filament composed of nanofibers onto a collector surface of water or an organic solvent.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Khil et al. (Novel Fabricated Matrix Via Electrospinning for Tissue Engineering, Journal of Biomedical Materials Research Part B: Applied Biomaterials, Volume 72B, Issue 1, pages 117-124) and Ramakrishna et al. (Seeram Ramakrishna et al., An Introduction to Electrospinning and Nanofibers, pages 147-148) provide additional disclosure on electrospinning of nanofibers. It is noted that neither reference is available as prior art under 35 USC § 102.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
